

Israel King | Innovation Designer

✉ isra.rey@gmail.com  LinkedIn  Madrid, Spain

Biochemist and biologist with 15 years of experience in the design and development of B2B/B2C technological products and services for large corporations and startups using innovation methodologies and tools and the implementation of open innovation strategies.

INNOVATION RESULTS

I coordinated the ideation and design of 9 new digital products for Banco Sabadell

Strategic innovation consulting with the management team of Banco Sabadell, conducting qualitative market studies and innovation sessions.

Definition of 10 new digital products, of which 9 were launched.

Banco Sabadell - Product and Service Design

I led the first addition of a startup to Hispasat's business portfolio: Pyro

Scouting and investing in startups, including the startup **Pyro** as a new service in the company's business portfolio: Monitoring of forest forests via satellite and sensors for fire prevention and detection.

Hispasat - Open Innovation

I founded a startup in the petcare sector, invested in by Telefónica and RocaSalvatella

I created a pet healthcare startup with a mobile app for owners, a web platform for veterinarians, health and vaccination records, reminders, and big data. It received investment from Telefónica and RocaSalvatella in Spain and Mexico.

Animalvitae - Pet Healthcare Startup

I designed and developed a strategic and project management platform with integrated AI

Strategic consulting (market analysis, areas, workflows and communication and responsibilities) and design, development and deployment of a platform for **MODIband** for strategic control and project management with integrated AI.

ENNTROPY - Strategic Consulting

COMPETENCIES INNOVATION AND

STRATEGY Innovation Design Transformation of complex needs and projects into new solutions, using innovation methodologies and tools.

Innovation Consulting: Diagnosis of the situation, definition of challenges, creation of a roadmap, development of pilot projects and improvement of the innovation culture.

Open Innovation: Designing collaborative ecosystems between corporations and startups, scouting and investing in startups.

Business Strategy: Startup foundation, strategic consulting and creation of innovation plans aligned with strategic plans.

LANGUAGES

Spanish
Native.

English
Basic professional competence.

TECHNOLOGY AND AI

Artificial Intelligence: Integration of AI into digital solutions and business processes, prompt engineering, model training, and vibe coding.

Digitalization and Automation: Digital transformation of sectors and companies, automation of processes through digital platforms and Artificial Intelligence.

Data, IoT and Earth Observation: Creation of platforms for the management and analysis of data from different technologies such as satellites and sensors.

QUALITIES

Creativity
High capacity to create original and valuable ideas and solutions, from brands to products or innovation tools.

Resilience: The ability to face and overcome challenges and obstacles, maintaining focus and motivation to achieve goals.

PROFESSIONAL EXPERIENCE

- 2025 – Present** ○ **Founder of ENNTROPY**
- **Strategic consulting** using existing and custom-designed innovation methodologies and tools to define strategic objectives, priorities, responsibilities, and management and communication systems.
